USING THE CLOUDBIT WITH IFTTT: SMS DOORBELL ANSWERING MACHINE

WEB TO BIT INTERACTION: SEND A TEXT MESSAGE TO PLAY MUSIC FOR A GUEST AT YOUR DOOR WHILE THEY WAIT FOR YOU

IFTTT

sms

When I text #OnMyWay, then activate elevator music on my SMS Doorbell
by littlebits

CLOUDBIT HTTP API

2 IFTTT sends an action to the cloudBit HTTP API.

3 The CloudBit HTTP API relays communication to Devicehub. Devicehub is the service that the cloudBits connect to.

DEVICE HUB

1 Send IFTTT a text message tagged #OnMyWay to trigger your recipe.

#OnMyWay

4 When the cloudBit recieves a pulse from Devicehub, it triggers the the mp3 player to play music for your guest.
